9. Read the text and write T (true) or F (false):

The town of Sobetsu is near the Showa-Shinzan mountain in Japan. In the past, many tourists visited the town, but usually only in the spring and summer. The town wanted more tourists to visit in the winter. So, they invented a winter sport called Yukigassen. It means 'snowball fighting' in Japanese.

Some people play the game as a hobby, but others compete in teams. The first Yukigassen competition was in 1989. The rules of the snowball fight are simple. Two teams hit each other with snowballs. They play three games in the competition. The team can use up to 90 snowballs in each game. Before the games, a special machine makes all the snowballs. When a snowball hits a player, he must leave the game. Each team has also got a flag. There are two ways to win the competition. The team with the most people at the end of the competition is usually the winner. But, if one team takes the other team's flag, it wins automatically.

The town's plan has been very successful. Today many tourists come to Sovetsu in the winter to watch the international Yukigassen competition!

1. In the past, many tourists visited the town in spring and summer.
2. Yukigassen is a sport played in summer.
3. The rules of the snowball fight are complicated.
4. There are three games in the competition.
5. The town's plan has been very successful.
